Global's Certified Products are in compliance with the stringent emission guidelines set by the GREENGUARD Environmental Institute and include all Upholstered Seating. To obtain a GREENGUARD Certificate for any product, please go to the product page on our website www.globaltotaloffice.com and click on "View GREENGUARD Certificate".

level™ certification, based on the ANSI/BIFMA e3-2012 furniture sustainability standard, sets furniture manufacturers on a path toward greater sustainability over time. Based on environmental and social criteria set forth in the standard, a product's entire supply chain is assessed.

Certification assessment includes an evaluation of specific corporate policies and guidelines and an assessment of associated company manufacturing facilities. Products must meet quantifiable milestones of environmental and social performance at every step of development.

The quantitative assessment addresses four categories: material use, energy and atmosphere impacts, human and ecosystem health and social responsibility.

Manufacturers earn points in each of the four categories. The level™ brand and its numeric rating of 1, 2 or 3 indicate what threshold of certification a product has achieved. level™ 3 is the highest rating.

WOOD VENEER DESK NOTES

The following applies to all VENEER Series - Corby, Dufferin and Lufton (unless otherwise noted).

CONSTRUCTION:

- "Number one select, architectural grade A" oak, American black walnut, American black cherry, and hard maple. Wood worksurface moulded edges are solid oak, walnut, cherry, or maple (except where square self-edges exist, i.e. credenza and computer worksurface back edges that are most commonly against walls).

FINISH:

- Conversion varnish (similar to catalyzed lacquer, but tougher), 25 degree sheen. Finishes are not buffed or rubbed.
- All Global wood casegood products are veneered and finished on the back sides (360 degree finishing), except modular under-surface storage - tops and backs are unfinished.
- Touch up kits available, includes a touch up marker and fill crayon. Order **VT TOUCHUPKIT, \$140** list. Specify finish when ordering.

PEDESTALS:

- Pedestals are fully assembled units. Undersurface storage units provide standard locks.
- All drawers are standard as vinyl-wrapped black embossed with V-groove construction.
- Drawers are "5-sided". The drawer front is an applied element to a four-sided drawer. Drawer fronts can be removed or replaced in the field.
- Pedestal drawers and lateral file drawers are supported by steel ball bearing suspensions. All suspensions carry a full lifetime warranty against defects.
- All drawers have full extension.

HARDWARE:

- All necessary hardware items for attaching furniture items are included in the shipment. Actual wall attachment fasteners for wall cabinets, tackboards and visualboards are not included due to variation between site conditions.
- **Leveling glides** are shipped installed on the unit. Levelers have a 1" range of adjustment.
- **Hanging file rails** are pre-installed on file drawer perimeters with additional front-to-back rails found in the bottom of the filing drawers. These rails hang onto plastic clips and do not require any tools to install. The back rail in a lateral file drawer is designed for both legal and letter size filing. To adjust back rail, simply install the rail to the pre-drilled holes accordingly.
- **Flat plates** for attaching bridge and return to desk are shipped pre-attached to the bottom of the bridge or return. **Mini flat plates** for securing bridge modesty panels to desk or credenza end panels, and **quick connectors** for securing modular corner units to adjacent pieces (Dufferin Series) are shipped along with screws in a plastic bag attached to the bottom of the bridge or return. CAUTION: using screws other than those supplied by Global could result in damage to finished tops.

INSTALLATION:

Wall-mounted cabinets and visual boards are pre-attached with horizontal wall rails to the back of each unit. The wall-side components need to be detached from the unit and fastened to the wall accordingly. Wall fasteners are not included due to variation between site conditions. Securing the wall rail to a vertical structural member is the required manner of installation. The cabinet or visualboard is then lowered on to the wall rail. It is important to level the wall rail before installation. Wall cabinets are equipped with levelers at the bottoms of the side panels for proper cabinet alignment. It is recommended to use a single drywall screw through the back of the cabinet and the wall-mounted rail, to further secure the wall attachment.

Wall-mounted tackboards have vertical grooves in the back for tasklight wiring. Horizontal wall rails are provided. Fasteners are not included due to variation between site conditions. The site installer need to position the wall rail and determine the type of screw to be used for the application. The tackboard is hung on the wall rail. Using a level will also aid in the tackboard installation.

Hutches are installed with double-faced tape applied on the bottom of the end panels. Global utilizes a non-marring method of hutch attachment. The tape is shipped in a plastic bag found in the hutch. Removal of the hutch requires moderate pressure to be applied on the top of the unit towards the wall for at least a minute for the pressure-sensitive tape to release. At the dealer or installer's discretion, additional support may be added by installing flat plates along the back of the attached units. These flat plates are not included in the shipment.

Hutch tackboards are factory installed.

Modular storage units have pre-drilled holes through the tops for securing to the bottom of the worksurfaces. Disassemble the modular unit first before relocating the entire unit to avoid damage or body injuries.

5-Sided corner tables and adjoining bridge and credenza run-offs are attached with MP-53 mending plates. Accurate leveling is critical for these units to align and connect properly.

NOTE: Leveling wood office furniture properly is the most important procedure to ensure proper functioning and alignment of drawers, locks and doors. Upon completing installation, wipe furniture with a damp cloth, followed with a dry soft cloth - always in the direction of the grain.

corby

global

Introducing the Corby Collection of wood veneer and laminate desks, tables and storage elements. Christopher Wright has reflected on the mid-century modern vernacular to design a unique series of workplace furnishings that reward a new generation of pioneers and nation builders.

Corby is suited for any office environment, private office, boardrooms, open desking and collaborative areas. Its timeless design is expressed in subtle details - flared legs that elevate storage off the floor, tapered aprons on the bottom of storage pieces which reflect the knife edge detail of the worksurface. Standard height and counter height tables combined with tiered storage pieces offer a reprieve from formal boardrooms and deliver a more casual style for meeting areas.

Corby is a fresh take on desking, blending the warmth and comfort of residential-style furniture with the features and long lasting quality you'd expect from Global.

foundations

Contemporary. Minimal. Inspirational. **Foundations** desking draws upon a contemporary minimal aesthetic, paring down furniture structure and surface to its essence to reveal an architecture of simple horizontal and vertical planar elements.

Each piece is designed to serve the needs of a changing office landscape, elevating the look and function of the private office and taking into account the diverse uses of meeting rooms in the modern work environment. Designed by Christopher Wright.

Foundations components for the private office include modular desks, credenzas and wall storage units punctuated by niches set into the vertical plane of the unit. Personal items or work tools can be stored in niches, desks and storage components that combine to suit individual work styles.

Features and Benefits

- Workwalls support configurations or function as display backdrops
- Niches are designed to accept tackboards, remote-controlled LED lighting and flat screen monitors
- Wall units can be specified with LED lighting.
- Power, data and cable management accessories are available on any Foundations unit, including boardroom tables to meet exact requirements.
- A full array of complementary conference room furnishings are available to coordinate the entire office.

Open frame leg

Workwall niche offers a surface, storage or display.

Workwall with integrated storage credenza.

GENERAL INFORMATION

- Foundations includes workwalls, single- and double-pedestal desks and executive desk extensions, bridges and transaction counters
- Storage components include credenzas, bench storage, wall-mounted and freestanding storage
- Two- or three-tone finish options allow for a distinctive aesthetic
- Executive desk extensions are supported by an open frame leg or elevated pedestals
- Modular wall units, pedestals and credenzas allow for scalable storage solutions; components accommodate L- and U-shaped configurations, as well as desk and workwall/credenza combinations.
- For environmental certification, please visit globalfurnituregroup.com

CONSTRUCTION

- Engineered veneer is real wood that through a manufacturing process of slicing, dyeing, gluing and re-slicing achieves consistent wood grain and color structure.
- Veneer is purchased by the block and sliced into a rift cut slip matched pattern to a thickness of 0.6mm (1/42"). Global lays up rift cut veneers in a slip match method.

FINISHES

- Conversion varnish (similar to catalyzed lacquer, but tougher), 25 degree sheen. Finishes are not buffed or rubbed.
- All Global wood casegood products are veneered and finished on the back sides (360° finishing), except modular under-surface storage - tops and backs are unfinished.
- Touch up kits available, includes a touch up marker and fill crayon. Order **VTTOUCHUPKIT, \$140** list. Specify finish when ordering.
- Global standard finish, on oak and walnut, is open pore and on cherry and maple is semi-closed pore. If a full finish is required for walnut, cherry, anigre and maple tops, Add the suffix "2" to the finish code and Add 5% to the base pricing for each product.

CUSTOM FINISH IS AVAILABLE.

PEDESTALS AND CRENZAS

- Suspended 7.5" off the floor by an open framed aluminum leg
- Locks are always located on the side panel.
- Handle placement is offset from the center, towards the lock
- Overall height is 26.5"
- Pedestal drawer suspensions are metal ball bearing type. Both box and file drawers are full extension.
- Hanging file rails are pre-installed on file drawer perimeters. The back rail in a lateral file drawer is designed for both letter and legal size filing.
- Drawer sides and bottoms are wrapped black vinyl. Veneered drawer interiors are available as an option.
- Drawer front is an applied element to a four sided drawer. Drawer fronts are veneered on all surfaces. Drawer fronts can be removed or replaced in the field.
- Leveling glides have 1" range of adjustment.

HARDWARE

- All necessary hardware to assemble the furniture is included in the shipment. Actual wall-attachment fasteners for wall cabinets and tackboards are not included due to variable site conditions.
- Hanging file rails are pre-installed on file drawer perimeters and accommodate both legal and letter size filing.
- Connecting brackets are used to attached bridges and returns to desk, and are shipped pre-attached to the bottom of the bridge or return. Additional screws are shipped in a plastic bag.

INSTALLATION

- **Wall-mounted cabinets and tackboards** are shipped with preattached horizontal wall rails at the back of each unit. The wall-side components must be detached from the unit and fastened to the wall accordingly. Wall fasteners are not included due to the variable site conditions. Securing the wall rail to a vertical structural member is the required manner of installation. The cabinet or tackboard is then lowered on to the wall rail. It is important to level the wall rail before installation. Wall cabinets are equipped with levelers at the bottom of the back panels for proper cabinet alignment. Units with doors are equipped with adjustable European door hinges to assist in door alignment. It is required to use a #8 wood screw through the back of the cabinet and the wall-mounted rail, to further secure the wall attachment. Tackboards have vertical grooves in the back for tasklight wiring.
- **Transaction counter and decorative panels** are shipped knock down. To assemble it follow the assembly instruction sheet included. To secure the transaction counter to the desk, double sided tape is applied to the bottom of the end panels. Included screws must be used to attach the decorative panel to the desk.
- **Modular storage units:** Have pre-drilled holes through the tops for securing to the bottom of the work surfaces. Screws and lock keys are included in a plastic bag fastened inside the pedestal. Pedestals may be installed flush or offset. Disassemble the modular unit first before relocating the entire unit to avoid damage or bodily injuries.
- **Work Walls:** Incorporate storage units, credenzas and niches of different sizes, attached to the base with connecting bolts. Upper units are installed with plastic dowels. Small connectors are supplied to secure the units thru the side panels. Complete assembly instruction is included with the wall unit. All necessary connectors and dowels are shipped in a plastic bag.
- **Credenza backpanels and display walls:** Optional credenza backpanels and display walls are attached to the units with supplied quick connectors. To assemble the display wall follow the assembly instructions included. All connectors and screws are shipped in a plastic bag.
- **Tables:** All table components are shipped in multiple boxes. Screws and table connectors are packed in a separate box identified with the label "Hardware Enclosed". Assembly instructions for specific tables are included.

The classic proportion, attentive detailing, exquisite hand-matched veneers and solid wood edge details convey refined elegance with timeless beauty. lufton

GLOBAL is pleased to introduce the **LUFTON** wood veneer series. This contemporary collection features an all wood veneer construction with a variety of features that emphasize a modern approach to the private office.

1" worksurfaces include a choice of four ¼" hardwood edges to choose from – Flat (L10), Radius (L20), Fluted (L30) and Soft Tail (L40). A black 5mm PVC inlay between the worksurface and gable provides a striking visual detail. Drawers and storage items feature eight handle options to choose from (where applicable) – storage options are available in 29", 66" and 72" heights. Various models include different types of storage configurations.

New 23" height credenzas allow for different visual planes – combined with a spacer unit, worksurfaces can be supported over this credenza.

Above worksurface storage selections include overhead storage and hutches with or without pigeon-hole storage. Hutch doors are available in a choice of veneer or glass with an aluminum frame. Tackboards are offered in all fabric or with a built-in accessory rail for organizing folders, binders, CDs and more!

Philadelphia detailing is traditional with a 1" overhang on all edges. Solid walnut, cherry, maple, oak that bands worksurface perimeter is 1" wide by 1-3/8" thick for an overall thickness of 1-3/8". Philadelphia is a "top over pedestal" detailed series. Philadelphia is standard with a base. Floor storage unit bases (i.e. kick-plates on pedestals, lateral files, bookcases, etc.) are extended out over drawer faces and horizontally grained. Products that are normally positioned against walls, such as credenzas, have a self-edge veneered back edge detail. All primary faces have pin molding decorations.

This elegantly designed traditional furniture series employs state-of-the-art manufacturing to create traditional pieces for executive offices, conference rooms and reception areas. Philadelphia is characterized by solid-wood edge detailing with solid-wood moldings on the cases and brass hardware throughout. The finest clear hardwoods are hand-selected to ensure that the best quality and consistency is achieved. Each piece is protected with a catalyzed conversion varnish to provide one of the most durable finishes in the industry. Philadelphia makes a truly impressive statement for the discerning customer.

HARDWARE

- All necessary hardware items for attaching furniture items are included in the shipment. Actual wall attachment fasteners for wall cabinets, tackboards and visual boards are not included due to variation between site conditions.

LEVELING GLIDES

- Shipped in a plastic bag attached to the bottom of the item or inside the pedestal. It is important to install leveling glides to ensure the unit is level. Levelers have a 1" range of adjustment.

HANGING FILE RAILS

- Pre-installed on file drawer perimeters and accommodate both legal and letter size filing

FLAT PLATES

- Flat plates are used to attach bridges and returns to desks and are shipped pre-attached to the bottom of the bridge or return.
- Mini flat plates for securing bridge back panels to desk or credenza end panels, and quick connectors for securing modular corner units to adjacent pieces, are shipped along with screws in a plastic bag attached to the bottom of the bridge or return.

CAUTION: Using screws other than those supplied by Global could result in damage to finished tops.

WALL-MOUNTED CABINETS, TACKBOARDS AND VISUAL BOARDS

- Pre-attached with horizontal wall rails to the back of each unit. The wall-side components must be detached from the unit and fastened to the wall accordingly.
- Wall fasteners are not included due to the variable site conditions. Securing the wall rail to a vertical structural member is the required manner of installation. The cabinet or visual board is then lowered on to the wall rail. It is important to level the wall rail before installation.
- Wall cabinets are equipped with levelers at the bottom of the back panels for proper cabinet alignment.
- Units with doors are equipped with adjustable European door hinges to assist in door alignment. It is required to use a #8 wood screw through the back of the cabinet and the wall-mounted rail, to further secure the wall attachment.
- Tackboards have vertical grooves in the back for tasklight wiring.
- Hutches and tackboards are installed with double faced tape applied to the bottom of the end panels. The tape is shipped in a plastic bag found in the hutch. Removal of the hutch requires moderate pressure to be applied on the top of the unit towards the wall for at least a minute for the pressure sensitive tape to release. Additional support may be added by installing flat plates along the outside back of the attached units. *These flat plates are not included in the shipment.*
- Hutch tackboards are factory-installed.
- Tackboards are standard in Grade 3 panel fabrics.

MODULAR STORAGE UNITS

- Pre-drilled holes through the unfinished tops for securing to the bottom of worksurfaces

Care and Cleaning

Textiles

Fabrics: To extend the life of your seating upholstered in fabric, regularly dust the chair to prevent airborne particles from penetrating the fabric surface.

For light soiling, use a damp cloth and blot the spot with very slight pressure, taking care never to soak the fabric. Dry with a clean cloth by blotting - never rub fabric. More intense stains can be treated the same way, but with a mild detergent. Always test fabric first in an unseen area before using any cleaning method.

Leather: For regular cleaning, simply use a soft damp cloth, taking care not to soak the leather. For more thorough treatment, soak a soft cloth in mild soap solution and wipe surface in a light circular motion. Repeat with clean water. Allow to dry and polish with a soft dry cloth. Do not use detergents, aerosol sprays or other polishes.

Hard Surfaces

Wood Veneer Finishes: Waxing or polishing catalyzed finishes is not recommended because this will give a greasy, cloudy or uneven appearance to the product and could void your warranty. Global's conversion varnish is best cleaned by wiping the surface with a damp cloth, followed by a soft dry cloth in the direction of the grain. If the surfaces are heavily soiled, a gentle product like "Windex" can be used, following the same instructions as above.

Laminate & Painted Metal Finishes: Using a soft cloth, simply wipe the surface with a mild soap solution or glass cleaner. Always use a dry cloth and circular motion to prevent streaks.

-
- **Water-Based Cleaner:** Spot clean, using the foam only from a water-based cleaning agent, such as a mild detergent or non-solvent upholstery shampoo product. Apply foam with a soft brush in a circular motion. Vacuum when dry. Pretest small area before proceeding.
 - **Solvent Cleaner:** Spot clean, using a mild water-free solvent or dry cleaning product. Clean only in a well-ventilated room and avoid any product containing carbon tetrachloride or other toxic materials. Pretest a small area before proceeding.
 - **Water/Solvent Cleaner:** Spot clean with a mild solvent, an upholstery shampoo, or the foam from a mild detergent. When using a solvent or dry cleaning product, follow instructions carefully and clean only in a well-ventilated room. Avoid any product that contains carbon tetrachloride or other toxic materials. With either method, pretest a small area before proceeding.
 - **Vacuum Only:** Clean this fabric only by vacuuming or light brushing to prevent accumulation of dust and grime. Water-based foam cleaning agents of any kind may cause excessive shrinking, staining, or distortion of the surface pile and therefore, should not be used.
 - **Crypton Cleaning:** Generally stains are removed with plain water and powdered enzyme detergent. Upholstery foam shampoo, water-based cleaning products and germicidal detergents can be used. Be sure to remove all residue from cleaning products with clean water. Do not use solvent-based cleaners or dry cleaning products.
 - These recommendations and codes were developed by fabric specialists. However, because of the various ways fabric can be stained or damaged, there is no guarantee that the results will be completely successful. Use suggested methods on your own responsibility. To help prevent overall soil, frequent vacuuming or light brushing to remove dust and grime is recommended. Use professional furniture cleaning service when overall soiled condition has been reached.

The grid below outlines the grade structure for using multiple textiles on select seating series. Blended textiles occur when one textile is chosen for one part of the chair and a different textile is selected for another part of the chair, resulting in a revised blended grade. For opportunities regarding more than two different textiles, please contact Global CustomerCare for approval process and grading.

CARE AND MAINTENANCE GUIDE

Wood Casegoods Care: Global furniture is constructed to strict specifications to ensure years of satisfied use. As with all wood products, certain care requirements and periodic maintenance are necessary in order to maintain the original new appearance and function.

Finishes: Global veneers and solid woods are carefully selected for color, tone and grain. Since the distinctive characteristics and nature of wood cause variations, exact matches are not always possible. Wood veneer, being a natural material, will have shade differences between veneer leaves. This will be more apparent between flitches. Fading on wood veneers can be caused by exposure to UV rays / sunlight.

Finish Protection: All clear wood finishes are susceptible to scratches from rough and abrasive objects, such as staples, paper clips, ceramic coffee mugs, flower pots, picture frames, etc. Computer equipment with rubber feet can also cause discoloration and softening of the finish due to petroleum distillates in the rubber.

The most practical protection is the use of desk pads, paper management bins and coasters. Common sense, caution with rough items, and adding pressure sensitive felt to the feet or bottoms of any potentially destructive item will help to ensure a mar free surface.

Finish Care: Wax or polish should never be used on the finish; they will give a greasy, cloudy or uneven appearance to the product. Global's conversion varnish finish is best cleaned by wiping the surfaces with a damp cloth, followed by a soft dry cloth in the direction of the grain. If the surfaces are very dirty, use of a glass cleaning type of product is recommended. Touch-up of wood furniture should only be attempted by a qualified refinisher/touch-up technician. Contact your furniture dealer if this need should arise.

GENERAL INSTALLATION AND HARDWARE

Leveling wood office furniture properly is the most important procedure to ensure proper functioning and alignment of drawers, locks and doors.

Hutch and wall cabinet doors may require field adjustment from time to time, due to shifting weight load factors inside the cabinet.

Modular furniture items, such as Desk Shells and Modular Pedestals **must be disassembled** prior to moving or relocating to avoid damage to the furniture.

Drawer suspensions are lubricated prior to shipment. Periodic lubrication may be applied to the ball bearing housing with a high quality lubricant found in most hardware stores.

Hanging file rails: Pre-installed on file drawer perimeters and accommodates both letter (front to back) and legal (side to side) size filing.

ATTENTION: Always load the bottom drawer of Lateral Files and Freestanding Pedestals first!

TERMS & CONDITIONS

This illustrated price list has been designed to facilitate fast reference and easy use. All products are categorized into "seating", "desks", "files", "panels", "tables" and "modular furniture", and are listed numerically within their categories. The line drawings match actual photographs (where possible) to aid in instant recognition of the total range within a series.

Sales of Global-The Total Office ("Global") products are made only on Global's standard terms and conditions of sale which are contained in this Price Book. These standard terms and conditions may be modified or supplemented only by a separately written document signed by Global's authorized personnel at its head office in Marlton, NJ. Any term or condition contained in any purchase order or other form used by dealer/purchaser to order goods (including standard, printed language) which is different from, in addition to, or in any way inconsistent with Global's standard terms and conditions shall be of no force or effect whatsoever.

All illustrations, specifications and prices in this book are based on the latest product information available at the time of publication. Global reserves the right to make changes, at any time and without prior notice, to prices, colors, materials, specifications and models offered.

Description

Each product shown or described in this price list is standard Global product. Variations are noted at the beginning of each series. Any variations from what is standard may require additional delivery time and cost and may affect the warranty given. Sizes and weights shown are approximate and are subject to slight changes from time to time.

Prices and Payment

The prices shown in this book, as well as those quoted by Global, are in United States dollars for orders shipped to destinations in the U.S. and Mexico.

If shipping date requested is more than 90 days from date of order, Global shall have the right to use published list prices effective at the time of shipment.

Orders are invoiced at the time of shipment. Terms of payment are net 30 days from date of invoice (1% 15 days) unless otherwise stated. The customer agrees that Global shall have the right to enforce a charge amounting to 1.5% per month (18% per year) on invoices outstanding more than 30 days.

If dealer/purchaser's most recent annual net volume is less than \$5,000.00, payment must be made in advance.

Any products sold by Global shall remain the personal property of Global until fully paid.

Prices are suggested list prices only and are subject to change without notice. Global will, however, attempt to keep dealer/purchasers up-to-date on all developments including price changes.

Taxes

All prices shown in this book are exclusive of sales, use, excise and other applicable taxes and are the dealer/purchaser's responsibility as per the invoice issued by Global. If dealer/purchaser claims an exemption from such taxes, it shall be the dealer/purchaser's responsibility to furnish Global with an appropriate exemption certificate at time of order.

Ordering Information

To avoid errors and/or duplication Global requires that all orders be submitted in writing. All orders submitted to Global in writing will be acknowledged on Global's acknowledgement forms governing the transaction. The details appearing on this acknowledgement will describe the items to be shipped and the approximate shipping date. It is the dealer/purchaser's responsibility to determine that the information in the acknowledgment is correct. In the event of an error, the dealer/purchaser must notify Global immediately by telephone followed by written confirmation. Shipping dates are assigned to orders based on the item having the longest manufacturing lead time.

When ordering, please provide the following information:

- 1) Account number (if possible)
- 2) P.O. number
- 3) "Bill to" and "ship to" name and address
- 4) Complete model number
- 5) Description
- 6) Options:
 - a. Upholstery fabric type and color (specify by name and number)
 - b. Color of paint finish, laminate or wood (if applicable)
 - c. Trim options (frame)
 - d. Arms
 - e. Base, Casters
 - f. Mechanism
 - g. Accessories

Dealer/purchaser is responsible for providing correct information when placing an order. Orders with incorrect information (finish, etc.) will be scheduled for manufacturing upon receipt of complete information.

All phone orders must be confirmed in writing by the customer within 7 days.

To prevent a delay in processing orders, please specify delivery routing.

Changes and Cancellations

After the date of Global's acknowledgment of a dealer/purchaser's order, the order may not be changed or cancelled by dealer/purchaser without the written consent of Global. Special order items, C.O.M. and fabric-covered items already in production are not subject to change or cancellation under any circumstances. Fabric-covered items are considered to be in production once the fabric is scheduled for cutting. Other standard items already in production are subject to a minimum 35% cancellation charge.

Errors and Omissions

All quotations, acknowledgements and invoices are subject to corrections for any errors and omissions.

FINISHES

Seating Finishes

Where painted frames are not a standard color, there is a one time charge of \$578.00 list price per-order for custom wood staining/color matching. Restrictions may apply. The customer must provide a 3" x 3" color chip/sample. Non-standard finishes must be approved by Global prior to acceptance of order.

File Finishes

All non-standard finishes must be approved by Global prior to acceptance of order and may be subject to an upcharge.

Laminated Tops - Pricing for all non-standard finishes and sizes must be provided by Global Customer Service and may be subject to an upcharge.

Desk Finishes

Because the distinctive characteristics and the nature of wood products cause variations, exact matches are not always possible.

Global has launched a finishes program between marketing companies within the Global Group to match products as best as possible when same finishes are specified.

C.O.M. (Customers Own Material)

Use of Customer's Own Material must be approved by Global prior to acceptance of order. Please refer to back of the Seating List Price Book and fill out the Authorization Request Form. Photocopy and use this form as often as necessary. The customer must provide a 12" x 12" fabric sample and advise how the fabric is to be applied. **Fabric yardage requirement will be advised by the factory, and additional yardage may be required if pattern requires matching.** Yardage shown in the List Price Book does not allow for pattern repeat/matching. Send to the address provided on shipping document upon approval from Global. If C.O.M. is difficult to apply or if product shall be modified, extra charges shall be made. Global reserves the right to cancel an order at any time if C.O.M. is inadequate for any reason. Customer's Own Material must be shipped freight and duties paid to our factory. Such shipment must be fully identified with purchaser's order number, RGA # provided by Global, and the item for which material is intended. Performance of C.O.M. when applied to product is the sole responsibility of the purchaser. Global's standard product warranty shall not apply to C.O.M. Use of C.O.M. will not reduce the published list price.

Textile Grading

All products are priced according to their standard fabric and fabric grade. Lower grade fabrics are available (unless otherwise specified) at same price as standard.

Delays

Global's shipping confirmation will state a shipping date which is Global's best estimate at the time the order is acknowledged. However, Global shall not incur any obligation or liability to Purchaser for failure to ship by specified date unless Global has agreed to an unequivocal shipping date in a separately signed written document executed by its authorized personnel at its head office. In addition, Global shall not be liable for any loss or damage resulting from any delay or failure in shipment or other failure to perform all or any part of the agreement between the parties with respect to the goods shown on the face of the order acknowledgement where such delay, failure, loss or damage is the proximate result of any act of any governmental authority or political subdivision thereof, revolution, riot, civil disorder or disturbance, delay or default in transportation, strike disputes among or between labor unions or other labor disputes, delay or inability in obtaining materials and facilities, fire, flood, act of God or any cause not within the reasonable control of the company, whether of the class of causes enumerated or otherwise.

Global will not be responsible for freight costs. No credit will be given if goods cannot be reused as new. Special order items, non-stock items and C.O.M. products are in no event subject to return. All returns must be approved and authorized in writing by Global Customer Service. Global reserves the right to refuse delivery of any unauthorized returns.

Claims

All goods are sold F.O.B. plant or Global Distribution Center. Global is not responsible for damage which occurs in transit (or in storage). The carrier signs for all goods received in apparently good order. It is the dealer/purchaser's responsibility to examine goods upon receipt and to file any claims with the carrier for losses or damage to the product occurring during transit, including concealed damage.

Any claims made against Global for apparent defects, errors or shortages must be made by the dealer/purchaser, in writing, within 15 working days after any delivery. Failure by the dealer/purchaser to make any claim against Global within 15 days shall constitute acceptance of the goods and a waiver of any apparent defects, errors or shortages.

Suspension

In the event that the dealer/purchaser defaults in the payment of any sum due to Global, or in the event the dealer/purchaser's financial condition becomes unsatisfactory to Global, Global shall have the right to defer or discontinue shipment of any goods until such time as the default is cured or the dealer/purchaser provides assurance of payment to Global.
